OUR MEASURES FOR A SAFE AND CAREFREE STAY

HYGIENE

We have programmed frequent cleaning rounds throughout the hotel and we are paying close attention to the disinfection of our sanitary services as well as high-traffic contact surfaces such as door handles, elevator buttons and railings.

Upon arrival, you will encounter a disinfection station, where you are able to clean your hands. Our employees wash their hands thoroughly every half hour, as well as when they engage in a different task. Work surfaces are cleaned hourly.

All meeting rooms, public areas and hotelrooms are extra ventilated

Wearing a face mask is required in all public areas. Guests who do not have one, can obtain a non-medical face mask at the front office for € 1.00 each.

ARRIVAL & DEPARTURE

In order to be able to evenly spread the arrival and departure streams, we are now allowing our guests to check in earlier than usual and we have also extended the checkout time. The check-in can now take place as early as 12 noon and checking out is possible until that very same time.

All guests are requested to (voluntarily) leave their name and telephone number so that the municipal health service (GGD) can contact them if necessary.

Hotel guest who are also attending a meeting will be contacted by e-mail in advance to inform them about the location of their meeting venue as well as the most efficient route towards it. Additional signage ensures that the routes are clearly marked.
